SELIM SALMAN
Digital.Innovation.Consulting

Profile

Selim is a seasoned German-Arab business-technologist with 18+ years of experience spanning academia, startups, and corporates. A founder and digital advisor, he focuses on Generative AI and Digital Transformation. Known for blending tech with business value, he's a conference speaker, academic author and Blogger at 'Bits & Ethos' newsletter, and holds certifications in ITIL, SAFe5, Accenture Technology Architecture and Founder Institute. Selim's mission: empower organizations to innovate and create lasting value through technology.
